EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 11-19, drawn to an invention elected without traverse (see the response filed 8/29/2002), are cancelled.

2. The following is an examiner's statement of reasons for allowance: Applicant's position advanced in the interview conducted June 1st, 2006 and in the paper filed 6/21/2006, are persuasive with respect to highlight the differences between Rutledge/Cavallero and the instant invention. Arguments presented demonstrated differences between prior art and claims 1 and 7, specifically as to the function of the sensor and the orientation of the movement axes. Specifically, while Rutledge has a support member, that member is not mounted toward and away from the substrate. More importantly, the floating liquid dispensing head is not mounted to float parallel to the axis of movement of the support member.

Arguments also pointed out that Rutledge utilizes a sensor for servomotor feedback and the instant application utilizes the linear encoder in order to identify when the dispenser has reached the dispensing position. While Rutledge utilizes a linear displacement sensor, this sensor provides feedback as to position. The instant claims

use a linear displacement sensor to generate a signal that indicates sensed displacement in response to *contact* of the head with the substrate. Rutledge does not disclose a signal generated by the sensor upon contact of the head with the substrate.

Therefore, the prior art of record, especially Rutledge, does read upon the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

3. The drawings filed 3/29/2001 are approved by the examiner.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to George R. Koch III whose telephone number is (571) 272-1230 (TDD only).
